FOR IMMEDIATE RELEASE

INTELLIGENT ID TO EXHIBIT AT BUSINESS TO GOVERNMENT CONFERENCE AND EXPO IN MD

March 20, 2013: OnGuard Systems, along with strategic partner Stealth Entry, will exhibit the Intelligent ID (IID) solution at the Business to Government Conference and Expo on Thursday, March 28 at the BWI Marriott in Linthicum, MD. The event is hosted by Tidewater TechExpo and connects businesses with government and military organizations to discuss new technology solutions, best practices, veterans' issues and more.

The Intelligent ID system is especially relevant to the Business to Government Expo, as IID's primary focus is to protect the digital assets of government, military and commercial organizations from insider threats, and secure sensitive and proprietary data from theft or misuse. This new technology allows technical and non-technical managers alike to gain transparency into all user activity on the endpoint, and provides unprecedented forensic evidence necessary take swift action in the event of a potential or real data breach.

Representatives from OnGuard Systems and Stealth Entry will exhibit the solution at a booth onsite. The BWI Marriott is located at 1743 West Nursery Road, Linthicum, MD 21090 from 8 am to 4 pm, and the event is free to attend.

###

About Intelligent ID

Intelligent ID (IID), created in 2009 by Founder and CEO Jim Mazotas, is a powerful Endpoint and User Activity Management System that enables unprecedented visibility into events that impact the security of organizations. IID analyzes past and real-time events to predict and alert to imminent behavior before zero-day events occur. IID effectively uncovers threats, recovers costs, increases productivity, improves compliance and enhances data loss prevention within organizations.
